

PREFACE TO THE SECOND EDITION

The text of the first edition has been corrected and rewritten on several points and more recent literature has been added to the bibliographies. This has partly been made possible by helpful critics, the most outstanding of which was W. F. Leemans, who in his review of the first six volumes of this series made many valuable suggestions (*J. E. S. H. O.* vol. III, 1960, 2, 217—237) most of which have been incorporated in the present edition. We hope that others will follow this example to help the author gather information on the subjects discussed in this book.
