

Acknowledgments

The following dissertation was accepted by the Freie Universität Berlin in 2004. I am greatly indebted to my supervisors Prof. Manfred Pfister and Prof. Gert Mattenklott for their support and encouragement. In addition, I would like to thank the Deutsche Forschungsgemeinschaft for a scholarship within the context of the Graduiertenkolleg *Körperinszenierungen* at the Freie Universität Berlin. The interdisciplinary atmosphere of this research group proved stimulating for my studies, and I should like to thank all participants for their feedback on my work. Finally, I am indebted to my proofreaders Zoë Loveland and Alan Metcalfe who greatly improved the English of the present study.
