

ACKNOWLEDGEMENTS

It is a pleasure to thank those who contributed to this book. I am grateful to my supervisors, Professors Peter de Voogd and Wiljan van den Akker, for giving me the time to find my own subject and for their detailed criticism and encouragement. Several others read parts of an earlier version of my dissertation as well and offered me the benefit of their scholarship: thanks are due to Professor Theo D'haen, Dr Peter Edelenbos, Dr Peter Liebrechts, Professor A. L. Sötemann, Dr Frits Stuurman, and to Professor Joris Duytschaever for his last-minute faxes.

Librarians from the University Libraries of Utrecht, Leiden, Nijmegen, Amsterdam and Groningen were ever willing to assist me in my search, as were staff from the Koninklijke Bibliotheek, the Nederlands Letterkundig Museum, the Nederlands Theater Instituut and the Amsterdam University Museum "De Agnieten Kapel". Without their help, my work would have taken longer and I would not have retraced some of the information they found me.

My colleagues at the English Departments of the Universities of Utrecht and Groningen contributed by their interest in my research and by taking over part of my teaching (thank you, Aleid!).

Last but not least, I am indebted to Menco Vlaardingerbroek, who listened to my problems and offered advice whenever I needed it.
