

ACKNOWLEDGMENTS

We wish to make due acknowledgment for the kind assistance we have received in the preparation of this work. For permission to publish these manuscripts we are indebted to the Dean and Chapter of Worcester and to the Syndics of Cambridge University Library. For permission to quote from an earlier article of ours published in Neophilologus 61(1977), 297-303, we are indebted to the Editors of that journal. We have met with uniform kindness and consideration from the librarians and staff of the Worcester Cathedral Library, the Cambridge University Library, the Students' Room of the British Museum, and the Henry E. Huntington Library; we are especially grateful to Mrs. B. E. Johnston, Assistant Librarian of Worcester Cathedral Library, and Mrs. Virginia Renner of the Henry E. Huntington Library, and Mrs. Susan Sarno. We are under special obligations to Dr. James Freeman and Dr. Ernest Gallo of the University of Massachusetts and we owe a debt of gratitude to Mrs. Joanna Paddock who prepared this manuscript for the press.
