Rédacteur—Editor

C. A. O. VAN NIEUWENHUIJZE

Le but de la collection est de faciliter la communication entre le grand public international et les spécialistes des sciences sociales étudiant le Moyen-Orient, et notamment ceux qui y résident. Les ouvrages sélectionnés portent sur les phénomènes et problèmes contemporains: sociaux, culturels, économiques et administratifs. Leurs principales orientations relèvent de la théorie générale, de problématiques, plus précises, et de la politologie: aménagement des institutions et administration des affaires publiques.

The series is designed to serve as a link between the international reading public and social scientists studying the contemporary Middle East, notably those living in the area. Works included are characterized by their relevance to actual phenomena and problems: whether social, cultural, economic, political or administrative. They are theory-oriented, problem-oriented or policy-oriented.
