

ACKNOWLEDGEMENTS

It is with great pleasure that I thank my many colleagues, the librarians and bibliographers at the institutions that I visited or corresponded with, for their splendid efforts in answering my numerous questions and queries while I prepared this catalog. Special thanks go to Frances N. Cheney, David Kaser, Michael Kammen, Josephine Tharpe, Janet Fletcher and Lois Hallett, who, at various stages during the project provided me with invaluable encouragement, advice, criticism and help. Despite their contributions, all omissions or errors are mine.
