

A TAXONOMIC REVISION OF THE EUROPEAN  
SPHACELARIACEAE

(*Sphacelariales*, *Phaeophyceae*)

# LEIDEN BOTANICAL SERIES

VOLUME 6

A TAXONOMIC REVISION  
OF THE EUROPEAN  
SPHACELARIACEAE  
(*Sphacelariales*, *Phaeophyceae*)

BY

W. F. PRUD'HOMME VAN REINE

Rijksherbarium, Leiden

E. J. BRILL / LEIDEN UNIVERSITY PRESS  
LEIDEN 1982

Published with financial support from the Netherlands Organization for the Advancement of Pure Research (Z.W.O.)

This book can be cited as:

W. F. PRUD'HOMME VAN REINE, 1982. A taxonomic revision of the European Sphacelariaceae (Sphacelariales, Phaeophyceae). E. J. Brill/Leiden University Press (Leiden Botanical Series No. 6). X + 293 pp., 6 plates, 660 figs., 21 tables.

In the Leiden Botanical Series will be published papers of a monographic nature from the entire field of Botany (including its history, bibliography, and biography) which by their length (100 printed pages or more) are unsuitable for publication in journals. Information can be obtained from the editors, Rijksherbarium, Schelpenkade 6, Leiden, The Netherlands.

World distributor for publications of the Universitaire Pers, Leiden: E. J. Brill, Postbus 9000, 2300 PA Leiden, The Netherlands.

|                                                                    |    |
|--------------------------------------------------------------------|----|
| Summary . . . . .                                                  | IX |
| Introduction . . . . .                                             | 1  |
| Acknowledgements . . . . .                                         | 3  |
| Sphacelariales . . . . .                                           | 5  |
| Distribution . . . . .                                             | 5  |
| Notes on morphology and descriptive terminology . . . . .          | 5  |
| Segmentation and growth . . . . .                                  | 6  |
| Branching . . . . .                                                | 9  |
| Terminology used for different types of branching . . . . .        | 11 |
| Formation of hairs . . . . .                                       | 14 |
| Prostrate parts . . . . .                                          | 15 |
| Ultrastructure . . . . .                                           | 16 |
| Notes on ecology . . . . .                                         | 16 |
| Form range and cultures . . . . .                                  | 16 |
| Unialgal cultures—methods . . . . .                                | 17 |
| Results of culture experiments . . . . .                           | 19 |
| Reproduction and life-history . . . . .                            | 19 |
| Methods for chromosome counts . . . . .                            | 22 |
| Review of life-histories in Sphacelariales . . . . .               | 23 |
| Chytridiaceous fungi in Sphacelariales . . . . .                   | 23 |
| Systematic position . . . . .                                      | 23 |
| Taxa . . . . .                                                     | 23 |
| Criteria used for the distinction of taxa . . . . .                | 24 |
| Delimitation of the order . . . . .                                | 28 |
| Classification . . . . .                                           | 28 |
| Key to the families . . . . .                                      | 29 |
| Sphacelariaceae . . . . .                                          | 31 |
| Distribution . . . . .                                             | 31 |
| Notes on nomenclature . . . . .                                    | 31 |
| Systematic position . . . . .                                      | 32 |
| Delimitation of the family . . . . .                               | 32 |
| Classification . . . . .                                           | 32 |
| Relationship of genera, subgenera, sections, and species . . . . . | 32 |
| Key to the genera . . . . .                                        | 42 |
| Sphacella . . . . .                                                | 43 |
| Systematic position . . . . .                                      | 43 |
| Accepted species . . . . .                                         | 44 |
| Sphacelaria . . . . .                                              | 49 |
| Notes on nomenclature . . . . .                                    | 49 |
| Notes on morphology . . . . .                                      | 50 |
| Ultrastructure . . . . .                                           | 50 |

Notes on distribution . . . . . 51

Reproduction and life-history . . . . . 54

    Chromosome numbers . . . . . 55

Systematic position . . . . . 55

    Delimitation of the genus . . . . . 55

Classification . . . . . 56

Key to the subgenera and sections . . . . . 57

Key to the species (and some ecads) . . . . . 57

    Accepted subgenera, sections, and species . . . . . 59

Doubtful, erroneous, and excluded names . . . . . 261

Glossary . . . . . 262

References . . . . . 265

Exsiccatae . . . . . 277

List of cultures . . . . . 278

List of tables . . . . . 281

Index of taxonomic names . . . . . 282
