Contents

<i>Preface by the Senior Author</i>	vii
<i>The companion compact discs</i>	xi
<i>Authors' note</i>	xii
<i>Colour Plates 1–3 are positioned between pages 484 and 485</i>	
1 Introduction	
General	1
An introduction to the European Orthoptera	4
Presentation	7
Classification	9
Scientific names	9
Vernacular names	12
The oscillograms	12
The compact discs	13
2 Acoustic methods	
Finding the insects	15
Recording the songs in the field	16
Recording the songs of captive insects	19
Storage and documentation of tape recordings	20
Analysing the songs	21
Copying recordings	23
Song terminology	23
3 Sound production and reception in the European Orthoptera	
Stridulation	30
Tremulation	36
Percussion	36
Crepitation	37
Sound reception	37

4	<i>The nature and function of the songs</i>	
	Types of song	41
	Female response and its specificity	42
	The attraction of predators and parasites	43
	Individual and geographical variation	44
	The effect of temperature	45
	The songs of hybrids	48
	Classifying the songs	52
	The song-patterns and their evolution	57
5	<i>The value of the songs in taxonomy and identification</i>	
	Historical review	61
	The phonotaxonomy of the western European Orthoptera	69
	Using the songs for identification	79
6	<i>Key to the singing Orthoptera of Western Europe, based primarily on their songs</i>	81
7	<i>Tettigoniidae (bush-crickets)</i>	110
8	<i>Gryllidae (crickets) and Gryllotalpidae (mole-crickets)</i>	259
9	<i>Acrididae (grasshoppers)</i>	281
10	<i>Other animal sounds that could be confused with orthopteran songs</i>	
	Cicadas	476
	Amphibians	478
	Birds	480
	<i>Appendix 1</i> Check-list of the species included	485
	<i>Appendix 2</i> Summary of nomenclatural changes	490
	<i>Appendix 3</i> Data for the song recordings	491
	Glossary	538
	References	543
	Index to vernacular names	579
	General index	584
