

CONTENTS OF VOLUME 158

Abu Baker, M.A., Emerson, S.E., Gorman, J. & Brown, J.S.	
Dietary choices in a generalist herbivore, the eastern cottontail <i>Sylvilagus floridanus</i> , in urban landscapes	377
Arre, A.M. & Horschler, D.J.	
Swimming and diving as social play in juvenile rhesus macaques (<i>Macaca mulatta</i>)	529
Aubin, J.A., Michaud, R. & Vander Wal, E.	
Prospective evolutionary drivers of allocare in wild belugas	727
Balasubramaniam, K.N., Beisner, B.A., McCowan, B. & Bloomsmith, M.A.	
Female social structure influences, and is influenced by, male introduction and integration success among captive rhesus macaques (<i>Macaca mulatta</i>)	1007
Britnell, J.A., Vorster, L. & Shultz, S.	
Evidence of infanticide in the Cape mountain zebra (<i>Equus zebra zebra</i>)	1043
Brooker, J.S., Webb, C.E. & Clay, Z.	
Fellatio among male sanctuary-living chimpanzees during a period of social tension	77
Burghardt, G.M., Partin, A.M., Pepper, H.E., Steele, J.M., Liske, S.M., Stokes, A.E., Lathan, A.N., Springer, C.M. & Jenkins, M.S.	
Chemically mediated self-recognition in sibling juvenile common gartersnakes (<i>Thamnophis sirtalis</i>) reared on same or different diets: evidence for a chemical mirror?	1169
Carro, M.E. & Fernández, G.J.	
Alarm calls of house wrens (<i>Troglodytes aedon bonariae</i>) elicit responses of conspecific and heterospecific species	829
da Silva, V.M.F., Silva, P.M., Schlichta, F., do Carmo, N.A.S., Olson, G.L., Hintermayer, B.G., Araujo, M.C. & Martin, A.R.	
Aggression towards neonates and possible infanticide in the boto, or Amazon river dolphin (<i>Inia geoffrensis</i>)	971
Dalla Benetta, E., van de Zande, L. & Beukeboom, L.W.	
Courtship rhythm in <i>Nasonia vitripennis</i> is affected by the clock gene <i>period</i>	685
Damas-Moreira, I.	
Playing dead: lizards show tonic immobility without human handling	809
Daniel, A. & Chaves-Campos, J.	
Contrary to vertebrates, less aggressive and more consistent individuals are common in disturbed habitats in the colonial spider <i>Metabus gravidus</i> (Araneae: Araneidae)	225
de Albuquerque, N.M., Ruiz-Esparza, J., da Rocha, P.A., Beltrão-Mendes, R. & Ferrari, S.F.	
Spontaneous ingestion of water by a free-ranging maned sloth, <i>Bradypus torquatus</i> , in the Ibura National Forest, northeastern Brazil	177

De Aquino, I., Platas-Neri, D., Sánchez-Ferrer, J.C., Jiménez, S. & Muñoz-Delgado, J.	
Tactical deception in sociosexual behaviour of stump-tailed macaques (<i>Macaca arctoides</i>): an exploratory study	945
De Meester, G. & Baeckens, S.	
Reinstating reptiles: from clueless creatures to esteemed models of cognitive biology	1057
De Meester, G., Sfendouraki-Basakarou, A., Pafilis, P. & Van Damme, R.	
Dealing with the unexpected: the effect of environmental variability on behavioural flexibility in a Mediterranean lizard	1193
Delgado-Martínez, C.M., Spaan, D., Contreras-Moreno, F.M., Simá-Pantí, D.E. & Mendoza, E.	
Spider monkey use of natural and artificial terrestrial water sources in Calakmul, Mexico	161
Dias, R.I. & Goedert, D.	
Task division in a facultative cooperative breeder bird: do males take out the trash?	795
Faust, K.M. & Goldstein, M.H.	
The role of personality traits in pair bond formation: pairing is influenced by the trait of exploration	447
Fernandes, D.C. & Passos, D.C.	
The voices of an alleged mute: sound emissions in a <i>Tropidurus</i> lizard	819
Fulmer, A.G. & Hauber, M.E.	
Autopreening behaviour may convey information about internal social state in Arabian babbler (<i>Turdoides squamiceps</i>) allopreening dyads	427
Glover, J.A. & Lattanzio, M.S.	
Female preferences for discrete and continuous male colour expression may help reinforce colour polymorphism in a desert lizard	315
Gokcekus, S., Brügger, R.K. & Burkart, J.M.	
Active sharing of a novel, arbitrary innovation in captive cotton-top tamarins?	51
Goldsborough, Z., Webb, C.E., de Waal, F.B.M. & van Leeuwen, E.J.C.	
Zoo-housed female chimpanzee adopts local female-specific tradition upon immigrating into a new group	547
Granados, A.V., Sabogal, J.C., Muñoz, P., Caicedo, J.C., Martínez-Cotrina, J. & Aponte Canencio, M.	
Ethogram of non-verbal behaviours associated with emotional regulation and stress response in children and adolescents with complex trauma	1421
Habedank, A., Kahnau, P. & Lewejohann, L.	
Alternate without alternative: neither preference nor learning explains behaviour of C57BL/6J mice in the T-maze	625

Ham, J.R., Lilley, M.K. & Manitzas Hill, H.M.	
Conspecific scarring on wild belugas (<i>Delphinapterus leucas</i>) in Cunningham Inlet	663
Harvey, D.P. & Black, J.M.	
Problem-solving performance in wild Steller's jays using a string-pulling task . .	99
Hending, D., Randrianarison, H., Cotton, S., Holderied, M. & McCabe, G.	
Observations of daytime activity in the nocturnal northern giant mouse lemur (<i>Mirza zaza</i>)	69
Humphreys, R.K., Ruxton, G.D. & Karley, A.J.	
Drop when the stakes are high: adaptive, flexible use of dropping behaviour by aphids	603
Jiménez-Vargas, G.M. & Vargas-Salinas, F.	
Does anthropogenic noise promotes advertisement call adjustments in the rubí poison frog <i>Andinobates bombetes</i> ?	565
Johnson, B.D., Fox, A., Wright, L.R., Carney, G.E., Robison, B.D. & Jones, A.G.	
<i>Nothobranchius furzeri</i> as an emerging model for mate choice: female choice revealed by animations	35
Kapteijn, C.M., van der Borg, J.A.M., Vinke, C.M. & Endenburg, N.	
On the applicability of eye movement desensitization and reprocessing (EMDR) as an intervention in dogs with fear and anxiety disorders after a traumatic event	1471
Kitchenham, L. & Mason, G.J.	
The neurobiology of environmentally induced stereotypic behaviours in captive animals: assessing the basal ganglia pathways and cortico-striatal-thalamo-cortical circuitry hypotheses	1251
Lucchini, K., Umeed, R., Guimarães, L., Santos, P., Sommer, I. & Bezerra, B.	
The role of touch in captive and semi-captive Antillean manatees (<i>Trichechus manatus manatus</i>)	291
MacKay, R.N. & Moore, P.A.	
Parasites differentially impact crayfish personality in different contexts	921
MacLellan, A., Fureix, C., Polanco, A. & Mason, G.	
Can animals develop depression? An overview and assessment of 'depression-like' states	1303
Matsumoto, K. & Mori, A.	
Adaptive foraging strategy of an insular snake (<i>Lycodon semicarinatus</i> , Colubridae) feeding on patchily distributed nests of sea turtles	869
Matsumura, K., Iwaya, M., Nagaya, N., Fujisawa, R. & Miyatake, T.	
Age-dependent walking and feeding of the assassin bug <i>Amphibolus venator</i>	123
Mermoz, M.E., Villarruel, C., de la Colina, A. & Mahler, B.	
Fledgling sex-ratio is biased towards the helping sex in a Neotropical cooperative breeder, the brown-and-yellow marshbird (<i>Pseudoleistes virescens</i>) . .	135

Morais, A.R., Siqueira, M.N., Márquez, R. & Bastos, R.P.	
Do male <i>Boana goiana</i> (LUTZ, 1968) (Anura: Hylidae) discriminate between the calls of neighbours and strangers?	585
Niederhauser, J.M., Slevin, M.C., Noonburg, E.G. & Anderson, R.C.	
Body size, habitat quality, and territory defense in Bachman's sparrow	479
O'Brien, D.M., Silla, A.J., Forsythe, P.S. & Byrne, P.G.	
Sex differences in response to environmental and social breeding cues in an amphibian	397
Overall, K.L.	
Pharmacotherapeutics in clinical ethology: treatment efficacy, clinical pathology and outcome	1355
Paciorek, T., McQuillan, M., Al-Shaer, L., Bloch, A., Carroll, Z., Moyer, R., Vaze, J., Leiser, J., Kuchka, M. & Itzkowitz, M.	
The influence of operational sex ratio on reproductive success in male sheepshead minnow (<i>Cyprinodon variegatus</i>)	19
Paulissen, M.A.	
Pattern biases, but not positional cues, influence learning in the little brown skink, <i>Scincella lateralis</i>	1077
Perez-Martinez, C.A. & Leal, M.	
Lizards as models to explore the ecological and neuroanatomical correlates of miniaturization	1121
Peterson, J.V. & Fuentes, A.	
Do long-tailed macaques avoid large heterospecific carcasses?	341
Reyes-Ramírez, A., Rocha-Ortega, M. & Córdoba-Aguilar, A.	
Feeding and condition shifts after encountering a pathogen	757
Ribeiro, P.D., Navarro, D.D. & Iribarne, O.O.	
Patch use and departure rules by gull-billed tern <i>Gelochelidon nilotica</i>	985
Roth, A.D., Krochmal, A.R. & Roth II, T.C.	
Context-specific cue use in the Eastern painted turtle (<i>Chrysemys picta</i>) and its effects on decision making	1101
Rufo, H.P. & Ottoni, E.B.	
Anecdotic observations of homosexual behaviour among male capuchin monkeys (<i>Sapajus</i> sp.)	89
Rufo, H.P. & Ottoni, E.B.	
Corrigendum to: Anecdotic observations of homosexual behaviour among male capuchin monkeys (<i>Sapajus</i> sp.) (Behaviour 158/1 (2021) 89–97, DOI: 10.1163/1568539X-bja10055)	353
Sánchez-Hernández, P., Suárez-Rancel, M.M. & Molina-Borja, M.	
Intersexual behaviour and effect of male and female intruders in the Tenerife skink (<i>Chalcides viridanus</i>). Is there any mate guarding?	901

Sandel, A.A. & Reddy, R.B.	
Sociosexual behaviour in wild chimpanzees occurs in variable contexts and is frequent between same-sex partners	249
Santoyo-Brito, E., Perea-Fox, S., Núñez, H. & Fox, S.F.	
Maternal care and secretive behaviour of neonates in the highly social lizard <i>Liolaemus leopardinus</i> (Squamata: Liolaemidae) from the central Chilean Andes may relate to size-specific bird predation	195
Shahriari, A., Khara, L.S., Allison, W.T. & Tierney, K.B.	
Zebrafish (<i>Danio rerio</i>) behavioural response to an odorant mixture containing attracting and repelling odorants	355
Sharp, A.R. & Islam, K.	
Does the intrusion of an avian nest predator elicit a change in the behaviour of a canopy-nesting passerine?	503
Slagsvold, T. & Wiebe, K.L.	
Use of landmarks for nest site choice and small-scale navigation to the nest in birds	705
Soley, F.G., Rodríguez, R.L., Höbel, G. & Eberhard, W.G.	
Insightful behaviour in arthropods?	781
Swierk, L. & Langkilde, T.	
Size-assortative mating in explosive breeders: a case study of adaptive male mate choice in anurans	849
Trisilo, S.P., Widayati, K.A. & Tsuji, Y.	
Effect of infant pelage colour on infant caring by other group members: a case study of wild Javan lutungs (<i>Trachypithecus auratus</i>)	277
van Herwijnen, I.R.	
Educating dog owners: how owner–dog interactions can benefit from addressing the human caregiving system and dog-directed parenting styles . .	1449
Vinke, C.M.	
Introduction to the special issue on Clinical ethology	1225
Wynne, C.D.L.	
Integrated clinical animal behaviour	1229
Xiao, F., Bu, R. & Shi, H.	
Quantifying shape similarity between prey and uninteresting models to study animal masquerade	1
