on microfiche

Advisor: Dr. R. Pankhurst, Institute of Ethiopian Studies, Addis Ababa, Ethiopia

Introduction

Ethiopia's culture is one of the oldest on the African continent. The country has a remarkably interesting history and has long been a meeting place for different cultures, religions, languages, and peoples. This gives Ethiopia a unique position among the countries of Africa, particularly with respect to its contacts with Western and Asian civilizations.

Much of the early literature about Ethiopia is very difficult to obtain, which makes this project especially valuable. The microfiche edition provides a well-selected and balanced basic collection of the most important sources.

The titles cover Ethiopia and the Horn of Africa generally, including Somalia.

The catalogue

For convenience, the titles are listed according to subject. An alphabetic author index makes the catalogue easier to use.
