

Call for Papers

Innovation & Education

Editor-in-Chief: **Nam-Hwa Kang**

This is a **Diamond Open Access journal**. Articles are published in Open Access at no cost to the author.

Innovation and Education is a double-anonymously peer-reviewed international journal sponsored by Korea National University of Education. The journal aims to promote high impact research on teaching and learning. It focuses on innovation, complexity and global challenges as the driving force of educational research and practice. Thus, the journal invites papers that address new ways to tackle problems in all aspects of education from theory to practice.

The journal addresses and connects seven main areas of research: advances in theories of education; digital learning and teaching; STEM (Science, Technology, Engineering, & Mathematics) and STEAM (Science, Technology, Engineering, Arts & Mathematics education) education; innovation and higher education; innovation and teacher education; innovation and life-long learning; Advances in Teaching Practices.

For questions and/or submissions please contact the Editor-in-Chief [Nam-Hwa Kang](#) or [Taegyung Lee](#).

Online submission: Articles for publication in the *Innovation and Education* journal can be submitted online through Editorial Manager. Special Issue proposals are also welcome.
