About the same amount of diaper rash	153 (10%)	
More diaper rash	21 (1%)	
My baby has never had diaper rash	926 (60%)	
Since having given your baby Evivo, is your baby's fussiness/gassiness:		
Response	n (%)	Total Respondents
Less	984 (63%)	1,553
About the same	474 (31%)	
More	95 (6%)	
Since having given your baby Evivo, have you noticed any of the following regarding their nighttime sleep?		
Response	n (%)	Total Respondents
Longer duration	210 (13%)	1,556
More consistent	136 (9%)	
Longer duration and more consistent	460 (30%)	
Sleeps about the same	639 (41%)	
Shorter duration	24 (2%)	
Less consistent	35 (2%)	
Shorter duration and less consistent	52 (3%)	
Since having given your baby Evivo, have you noticed any of the following regarding their napping behavior?		
Response	n (%)	Total Respondents
Longer duration	113 (7%)	1,565
More consistent	155 (10%)	
Longer duration and more consistent	252 (16%)	
Naps about the same	895 (57%)	
Shorter duration	43 (3%)	
Less consistent	27 (2%)	
Shorter duration and less consistent	80 (5%)	

How long after starting Evivo did you notice the change in their diaper rash?		
Response	n (%)	Total Respondents
Immediately	93 (21%)	448
Within the first week	236 (53%)	
Within two weeks	99 (22%)	
About a month	20 (4%)	
How long after starting Evivo did you notice the change in their fussiness/gassiness?		
Response	n (%)	Total Respondents
Immediately	137 (14%)	982
Within the first week	481 (49%)	
Within two weeks	306 (31%)	
About a month	58 (6%)	
How long after starting Evivo did you notice the change in their nighttime sleep?		
Response	n (%)	Total Respondents
Immediately	69 (9%)	804
Within the first week	330 (41%)	
Within two weeks	292 (36%)	
About a month	113 (14%)	
How long after starting Evivo did you notice the change in their napping behavior?		
Response	n (%)	Total Respondents
Immediately	58 (11%)	518
Within the first week	226 (44%)	
Within two weeks	187 (36%)	
About a month	47 (9%)
