

**The paratransgenic potential of *Lactobacillus kunkeei* in the honey bee *Apis mellifera***

A. Rangberg, G. Mathiesen, G.V. Amdam and D.B. Diep

**Table S1. The significance in survival between all treatments was evaluated by a two sample- and Cox's F-test. The *P*-values between the groups are listed in the table, and significant values (>0.05) are marked with an \*.**
